

CUPRA HALO MODEL

At CUPRA, we understand that driving is, above all, about emotion. This conviction is the driving force that inspires us to continue pushing the boundaries of performance, taking engineering to its highest level. With the objective of offering high-end products that redefine the driving experience, we present our two new flagship models: the **new Leon VZ TCR** and the **Formentor VZ5**. Two vehicles created for those who are not just looking for a car, but a genuine connection with the road.

LEON VZ TCR

- The CUPRA **Leon VZ TCR** is the most powerful front-wheel-drive Leon ever, delivering **325PS**, with an unrestricted top speed capability. It’s a bold reinterpretation of the brand’s most dynamic hatchback.
- Limited to only **499 units**, the CUPRA Leon VZ TCR pays tribute to every racing Leon ever built.
- Born from the track and crafted for the street, this limited edition captures CUPRA’s drive for performance, individuality, and the thrill of pushing limits. It features a distinctive racing-inspired design with exclusive exterior aerodynamic enhancements, wider performance tyres, 4-strap harnesses, and removable rear seats, to lower weight and boost emotions.
- Every detail of the CUPRA Leon VZ TCR is engineered for precision. This limited edition features a high-performance specification designed to optimise aerodynamics and deliver track-ready aesthetics:
